

Painting in Pastel with Lenin Delsol

CLASS 730

MAY 6–JUNE 17, 2019

No class on May 27, 2019

Many people have a set or two of pastels that they thought they might use, but never actually do. In this class, we will finally put those pastels to use painting the portrait and figure while experimenting with different pastel techniques and surfaces. Classes will include demonstrations, discussions and individual instruction. Students can expect to work in the very first class.

While this class is open to artists of any skill level, drawing experience and the basics of color theory is required.
